

MENTENG GRAND

GADING SERPONG

Gading Serpong is an urban township situated some 18 km west of Indonesia's capital city Jakarta. Set in a green environment with an abundance of natural lakes, the township is strategically located along the Jakarta-Merak toll road with close proximity to the country's main international Airport, in addition to being easily accessible from Serang, Cilegon and the popular tourist destination of Anyer.

The township is also in close proximity to other modern suburban areas with Lippo Karawaci to the west, BSD City to the south, Alam Sutera to the east, and Puri Indah to the northeast. Through our expertise in urban planning, project and construction management, town and estate management, Paramount Land has developed first-class infrastructure and facilities to provide greater convenience for its residents.

This modern, self-contained city now covers 1,200 ha and consists of landed houses, shophouses, and condominiums, in addition to hospitals, schools, universities, hotels, commercial areas and lifestyle center. Furthermore, we have incorporated green public spaces and a large variety of recreational areas from restaurants to golf courses, resulting in an increase in total population in a short time.

With so much to offer, Gading Serpong is now home to over 100,000 people, growing at 5% year-on-year. The diverse and culturally rich community consists of a combination of families, young professionals, students, investors and both local and international tourists.

Paramount Land will continue to focus on property at its flagship township and is also planning to develop several new townships in other strategic locations looking further west and south of Jakarta, including in the cities of Tangerang and Bogor.
